Richard Trofimov

Full-stack software developer

+995 568 81 42 23 | tr.riccorichards@gmail.com | Georgia, Tbilisi | [LinkedIn](#)

PROFILE SUMMARY

Experienced Full-Stack Developer with a solid grasp of front-end and back-end technologies, notably TypeScript and JavaScript. Demonstrated ability to create responsive interfaces and robust APIs. Adept in database optimization and schema design using MongoDB, Postgres, and MySQL. Prioritizes maintainable code and user-centric solutions.

Skills

- **HARD SKILLS:** Html | Css | JavaScript | TypeScript | Node JS | React JS | SQL | NoSQL | Redux TK | Microservices;
- **SOFT SKILLS:** Problem-Solving | Adaptability | Communication | Time Management | Attention to Detail | Empathy | Empathy

EXPERIENCE

Full Stack Developer (Project-based)
Self-directed E-commerce Platform Project

Working Duration/Pages/Architecture: 56 days | 35+ | Microservices

- Developed a full-featured e-commerce platform utilizing a microservices architecture, enhancing scalability and maintainability.
- Engineered the frontend using React and TypeScript, integrating Redux Toolkit for state management, to deliver a responsive user experience.
- Implemented a suite of backend services with Node.js, managing multiple databases including MongoDB, MySQL, and PostgreSQL to handle diverse data needs.
- Integrated Google Cloud Platform services, including file storage and Google Maps APIs, improving the functionality and user interaction of the platform.
- Employed RabbitMQ for efficient communication between microservices, ensuring a decoupled system with high throughput and reliability.

EDUCATION

- **Advanced Node.js:** LinkedIn Learning Certificate | Issued: 01/2024
- **Self-Taught Expertise:** Complemented formal education with self-paced learning and professional certifications, such as an advanced course in Node.js through LinkedIn Learning.
